

PUBLICATIONS:

Knych, H., *et al.*, *Pharmacokinetics, pharmacodynamics, and metabolism of acepromazine following intravenous, oral, and sublingual administration to exercised Thoroughbred horses*, J. vet Pharmacol Therap. 2018; 1-14

deLaat, M., *et al.*, *AICAR administration affects glucose metabolism by upregulating the novel glucose transporter, GLUT89, in equine skeletal muscle*, The Veterinary Journal 205 (2015) 381-386.

Robinson, M., *et al.*, *Pharmacokinetics and Pharmacodynamics of AICAR in the horse* (Poster), International Conference of Racing Analysts and Veterinarians, 2012 Philadelphia, PA

Epp, T., *et al.*, *Effects of conjugated oestrogens and aminocaproic acid upon exercise-induced pulmonary haemorrhage (EIPH)*, Comparative Exercise Physiology (2008); 5(2): 95-103.

Knych, H., *et al.*, *Pharmacokinetics of betamethasone in plasma, urine, and synovial fluid following intra-articular administration to exercised thoroughbred horses*, Drug Test. Analysis 2017, 9, 1385-1391

Knych, H., *et al.*, *Pharmacokinetics and pharmacodynamics of butorphanol following intravenous administration to the horse*, J. vet. Pharmacol. Therap. 36(1):21-30 (Feb. 2013)

Knych, H. *et al.*, *Elimination of cetirizine following administration of multiple doses to exercised thoroughbred horses*, J. vet. Pharmacol. Therap. DOI: 10.1111/jvp.12318

Knych, H. *et al.*, *Detection, pharmacokinetics and cardiac effects following administration of clenbuterol to exercised horses*, Equine Vet Journal, 2013 June. DOI: 10.1111/evj.12118

Knych, H., *et al.*, *Pharmacokinetics and selected pharmacodynamics of cobalt following a single intravenous administration to horses*, Drug Testing and Analysis (2014) (www.drugtestinganalysis.com) DOI 10.1002/dta.1737

Knych, H., *et al.*, *Pharmacokinetics and metabolism of dantrolene in horses*, J. vet Pharmacol. Therap., 34: 238-46 (June 2011)

Knych, H., *et al.*, *Pharmacokinetics and pharmacodynamics of detomidine following sublingual administration to horses*, AJVR, Vol 72, No. 10, October 2011 pp 1378-1385

Knych, H. and Stanley, S., *Effects of three antagonists on selected pharmacodynamic effects of sublingually administered detomidine in the horse*, Veterinary Anaesthesia and Analgesia, 2014, 41, 36-47

Grady, J., *et al.*, *Pharmacokinetics and pharmacodynamics of dexamethasone after oral administration in apparently healthy horses*, AJVR, Vol. 71, No. 7 July 2010 pp 831-839.

Soma, L., *et al.*, *Pharmacokinetics of dexamethasone following intra-articular, intravenous, intramuscular, and oral administration in horses and its effects on endogenous hydrocortisone*, *Journal of Veterinary Pharmacology and Therapeutics*, 36: 181–191 (April 2013)

Blea, J., *et al.*, *Intravenous Dimethyl Sulfoxide Administration and Withdrawal Guideline Determination*, *Proceedings of the 22nd International Conference of Racing Analysts and Veterinarians*, Dubai 2018.

Gupta, S., *et al.*, *Screening and confirmation of recombinant human erythropoietin and darbepoietin- α in spiked plasma samples from drug-free horses*, *Acta Chimica Acta* (2005) 552:1-2, 96-109.

Knych, H., *et al.*, *L- and D-threo ethylphenidate concentrations, pharmacokinetics, and pharmacodynamics in horses*, *Drug Test Anal.* May 2018. DOI: 10.1002/dta.2408

Chen, J., *et al.*, *Inflammatory mediators are potential biomarkers for extracorporeal shockwave therapy in horses*. *Equine Veterinary Journal* (2019), DOI: [10.1111/evj.13183](https://doi.org/10.1111/evj.13183)

Knych, H., *et al.*, *Detection and pharmacokinetics of three formulations of firocoxib following multiple administrations to horses*, *Equine vet. J.* DOI: 10.1111/evj.12211

Knych, H., *et al.*, *Pharmacokinetics and effects of thromboxane B2 production following intravenous administration of flunixin meglumine to exercised Thoroughbred horses*, *J. vet. Pharmacol. Therap.* DOI: 10.1111/jvp.12197

Knych, H., *et al.*, *Pharmacokinetics and anti-inflammatory effects of flunixin meglumine as a sole agent and in combination with phenylbutazone in exercised Thoroughbred horses*, *Equine Vet J.* 2020; 00:1-15.

Hinchcliff, K., *et al.*, *Efficacy of furosemide for prevention of exercise-induced pulmonary hemorrhage in Thoroughbred racehorses*, *JAVMA*, Vol 235, No. 1, July 1, 2009 pp 76-82.

Robinson, M., *et al.*, *The Pharmacokinetics of Intravenous and/or Orally Administered Glaucine and Glaucine-containing plants in the horse* (Abstract), *Proceedings of the 21st International Conference of Racing Analysts and Veterinarians*, Uruguay 2016.

Rumpler, M., *et al.*, *Validation of a Liquid Chromatography--Tandem Mass Spectrometry Method for Quantification of Glycopyrrolate in Horse Plasma*, *Journal of Analytical Toxicology*, Vol. 35, November/December 2011 pp 656-664.

Rumpler, M., *et al.*, *Pharmacokinetics of glycopyrrolate following intravenous administration in the horse*, *J. vet Pharmacol. Therap.*, 2012 0.1111/j.1365-2885.2011.01272.x

Rumpler, M., *et al.*, *The pharmacokinetics of glycopyrrolate in Standardbred horses*, *J. vet. Pharmacol. Therap.* 37, 260-268

Knych, H., *et al.*, *Pharmacokinetics of **guaifenesin** following administration of multiple doses to exercised Thoroughbred horses*, J Vet Pharmacol Ther. 2016 Aug; 39 (4): 416-419

Benson, D., *et al.*, *Determination of a plasma threshold and withdrawal guidance recommendation for **isoflupredone** administered intra-articularly and subcutaneously as its acetate ester*, Proceedings of the 20th International Conference of Racing Analysts and Veterinarians, Mauritius, 2014.

Knych, H., *et al.*, *Disposition of **isoflupredone** acetate in plasma, urine and synovial fluid following intra-articular administration to exercised Thoroughbred horses*, Drug Test. Analysis 2016, 8, 141-147

Knych, H., *et al.*, *Expression of inflammatory and structural matrix genes in synovial fluid following intra-articular administration of **isoflupredone** acetate to exercised horses*, Equine Vet J 50 (2018) 504-512

Knych, H., *et al.*, *Pharmacokinetics of **ketoprofen** enantiomers following intravenous and oral administration to exercised Thoroughbred horses*, The Veterinary Journal 207 (2016) 196-198.

Soma, L. *et al.*, *Pharmacokinetics of intravenous, subcutaneous, and topical administration of lidocaine hydrochloride and metabolites 3-hydroxylidocaine, monoethylglycinexylidide, and 4-hydroxylidocaine in horse*, J. Vet. Pharmacol. Therap. (2018), DOI: 10.1111/jvp.12695

Rumpler, M., *et al.*, *The pharmacokinetics of methocarbamol and guaifenesin after single intravenous and multiple-dose oral administration of **methocarbamol** in the horse*, J. Vet. Pharmacol. Therap., 2013 DOI: 10.1111/jvp.12068.

Knych, H., *et al.*, *Disposition of **methylprednisolone** acetate in plasma, urine, and synovial fluid following intra-articular administration to exercised thoroughbred horses*, J. vet. Pharmacol. Therap. DOI: 10.1111/jvp/12070

Knych, H., *et al.*, *Disposition of the anti-ulcer medications **ranitidine**, **cimetidine**, and **omeprazole** following administration of multiple doses to exercised Thoroughbred horses*, J. vet. Pharmacol. Therap. Doi: 10.1111/jvp.12328.

Hansson, A., *et al.*, *Equine in vivo-derived metabolites of the **SARM** LGD-4033 and comparison with human and fungal metabolites*, Journal of Chromatography B 1074-1075 (2018) 91-98

Moeller, B., *et al.*, *Pharmacokinetics of **stanozolol** in Thoroughbred horses following intramuscular administration*, J. vet. Pharmacol. Therap: DOI: 10.1111/j.1365-2885.2012.01393.x

Moeller, B., *et al.*, *An interlaboratory study of the pharmacokinetics of **testosterone** following intramuscular administration to Thoroughbred horses*, J. vet. Pharmacol. Therap DOI: 10.1111/j.1365-2885.2011.01277.x

Knych, H., *et al.*, *Pharmacokinetics of triamcinolone acetonide following intramuscular and intra-articular administration to exercised Thoroughbred horses*, Equine vet J (2013). DOI: 10.1111/evj.12059

Knych, H., *et al.*, *Cytokine, catabolic enzyme and structural matrix gene expression in synovial fluid following intra-articular administration of triamcinolone acetonide in exercised horses*, Equine vet j (2016) DOI: 10.1111/evj.12531

Soma, L.R., *et al.*, *Pharmacokinetics of intra-articular, intravenous, and intramuscular administration of triamcinolone acetonide and its effect on endogenous plasma hydrocortisone and cortisone concentrations in horses*, Am J Vet Res., 72(9):1234-42 (Sept. 2011)

Mendoza, J., *Studies of Intact and Modified Ziconotide by Liquid Chromatography Tandem Mass Spectrometry*, A Dissertation presented to the graduate school of the University of Florida in partial fulfillment of the requirements for the degree of Doctor of Philosophy, 2009.
